

Create New Assets with ease

Standalone Engine Creation via Wizard

Users can now easily create Standalone Engine assets using a guided step-by-step Wizard.

Aircraft Creation via Wizard

Aircraft assets can now also be created through the intuitive Wizard interface, reducing setup time and ensuring data consistency.

AI-Powered Tech Spec Ingestion

Our new AI tool enables seamless ingestion of Tech Spec files to create Assets faster and more accurately.

Enhancements & UI Improvements

- Fleet Summary
- Asset Details Edit mode
- Navigation
- Date pickers and date inserts
- Fly Forward Parameters section
- Fly Forward Report layout
- Smart Schedule table

Several updates to labels and styling across the platform to ensure a cohesive and consistent user experience.
