

## Flyward Partners with Airline Economics+ to Bring Advanced Maintenance Cash Flow Forecasting to Aviation Finance

London, UK – 16.06.2025

Flyward, a fast-growing SaaS platform delivering next-generation **Maintenance Cash Flow Forecasting** solutions for aviation finance, is pleased to announce a strategic partnership with **Airline Economics + (AE+)**, the advisory and consultancy initiative of Airline Economics, the industry's leading publication and events company dedicated to aviation finance.

This integration embeds Flyward's advanced forecasting technology directly into the AE+ advisory platform—enabling aviation professionals to access powerful, flexible forecasting tools as part of their existing AE+ workflows. The collaboration delivers faster, smarter support for lease modeling, investment evaluation, and transaction strategy development.

*"This partnership brings meaningful functionality to our users," said **Philip Tozer-Pennington, Managing Director at Airline Economics**. "Flyward's flexible forecasting tools enable AE+ clients to evaluate deals with greater speed and clarity, helping them navigate increasingly complex financial landscapes."*

The integrated Flyward experience within AE+ includes:

- **AI-Powered Asset Setup** – Quickly upload and analyze aircraft specifications using intuitive drag-and-drop tools.
- **Flexible Scenario Analysis** – Evaluate and compare multiple deal structures or pricing strategies.
- **Event Time Optimization** – Align maintenance events or adjust timings, with all calculations instantly refreshed.
- **Exportable Forecast Reports** – Save and share clean, assumption-backed outputs to support client or internal review.

*"This is a pivotal step for Flyward," said **Pablo Azcarate, Head of Product at Flyward**. "Through AE+, our powerful forecasting engine is now accessible to the professionals shaping aviation finance. We're excited to support better, faster decision-making for the industry's most analytical users."*

The partnership underscores the shared mission of Flyward and AE+: to equip aviation finance professionals with forward-thinking, analytical tools that support more accurate asset valuation, risk assessment, and pricing decisions in an evolving market.
